AM-9-95

Analysis Prepared by the Department of Natural Resources

Authorizing statutes: ss. 144.31(1)(a), 144.391(6) and 227.11(2)(a), Stats.

Statutes interpreted: s. 144.31(1)(f), Stats. The State Implementation Plan developed under that provision is revised.

These rule changes affect Wisconsin's existing environmental protection air pollution control rules. Changes affecting most elements of the air pollution control program are made, including; definition of terms, permitting, compliance schedules, emission testing, emission limitations, emission monitoring and incorporation by reference. These changes also affect diverse source categories and pollutants. However, these changes are of a cleanup nature, and are intended to correct errors in content or style, or to improve consistency or clarify existing policy or procedures.

The consent of the Attorney General and the Revisor of Statutes will be sought for the incorporation by reference of two appendices in Title 40 of the Code of Federal Regulations containing test methods and the incorporation by reference of a previously approved document from the American Conference of Governmental Industrial Hygienists for two additional citations.

SECTION 140. NR 426.04 is amended to read:

NR 426.04 (title) CUPOLA EMISSION LIMITATIONS. No person may cause, allow or permit significant emissions of carbon monoxide from any ~~new~~ cupola the construction or modification of which commenced after April 1, 1972 to be emitted to the ambient air unless such emissions are incinerated at 1,300EF for 0.3 second, or reduced by some other means an equivalent amount. Compliance with this limitation shall be shown to the department on initial startup of the source.
