

NPDES authorization to discharge to waters of the United States, Permit No. NM0030305

The applicant's mailing address is: Village of Angel Fire
P.O. Box 610
Angel Fire, NM 87710

The facility is authorized to discharge from a facility located at 67 Darrell Benjamin Road, Angel Fire, in Colfax County, New Mexico, from Outfall 001 located at Latitude 36° 23' 17" North, Longitude 105° 17' 00" West. Discharges from the facility for the described activities are to the Cieneguilla Creek, State of New Mexico Segment No.20.6.4.309 of the Canadian River Basin. The known uses of the receiving water are domestic water supply, high quality coldwater aquatic life, primary contact, irrigation, livestock watering, wildlife habitat, and public water supply.

Under the Standard Industrial Classification (SIC) Code 4952, the applicant operates a Publicly Owned Treatment Works (POTW) with a design capacity of 0.50 million gallons per day (MGD).

This is a renewal of a permit issued September 27, 2017, with an effective date of November 1, 2017, and an expiration date of October 31, 2022.

Changes from the previous permit are:

- A. Updated TP and TN loading limits to 90% percentile of facility performance.
- B. Electronic DMR reporting requirements have been included in the modified permit.
- C. Language on the Sufficiently Sensitive Methods has been established in the proposed permit.
- D. Updated compliance and reporting schedule to mirror TP and TN phased limits established in the TMDL.
- E. Updated Dissolved Oxygen minimum.
- F. Updated Critical Dilution.

A factsheet is available.

Note: All data submitted by the applicant is available as part of the administrative record. Further information regarding the administrative record may be requested from the EPA contact below or viewed at the address below between 8 a.m. and 4:30 p.m., Monday through Friday. It is recommended that you write or call for an appointment, so the record (s) will be available at your convenience.

State Certification

The notice also serves as Public Notice of the intent of the New Mexico Environment Department, Surface Water Quality Bureau to consider issuing Clean Water Act (CWA) Section 401 Certification. The purpose of such certification is to reasonably ensure that the permitted activities will be conducted in a manner that will comply with applicable New Mexico water quality standards, including the antidegradation policy, and the statewide water quality management plan. The NPDES permit will not be issued until the certification requirements of Section 401 have been met.

If you want to comment on State Certification submit written comments within the 30 day period to:
