

Integrated Reporting memoranda are issued by the U.S. EPA and detail key information concerning the biennial Integrated Reports under the Clean Water Act Sections 303(d), 305(b) and 314. The following table documents the topics addressed in each Integrated Reporting memoranda dating back to 2002 as an informational resource to facilitate retrieval of historic EPA guidance. Inclusion in this table does not necessarily constitute or imply its endorsement, recommendation, or conformance to current Agency policy or regulation. This document is not to be cited or solely used for decision-making. This document is not regulation and does not impose legally binding requirements on the EPA, states, territories or authorized Tribes.

Integrated Reporting Memoranda under CWA Sections 303(d), 305(b) and 314

Memo	Table of Contents
2026	Defining Segments (Assessment Units)
	Use of Advisories in CWA Section 303(d) Water Quality Attainment Decisions
	CWA Section 303(d) Assessment/Listing for Public Water Supply Use Impairments
	Antidegradation and Protection of Existing Uses
	Priority Ranking for Waters on the CWA Section 303(d) List
	Use of Water Quality Impairment Data Reported under CWA Section 305(b) in Fiscal Year 2026 to Update the Variable Portion of the Fiscal Year 2027 CWA Section 106 Grant Allocation Formula (40 C.F.R. 35.162)
2024	2022-2032 CWA Section 303(d) Vision
	Clarification Regarding Priority Rankings and TMDL Submission Schedules
	Environmental Justice
	Participatory Science
	Climate Change
	Indian Tribes and Tribal Water Resources
	CWA Section 303(d) Assessment/Listing for Trash-Related Impairments
	CWA Section 303(d) Assessment/Listing for Nutrient-Related Impairments Identifying the Pollutants Causing or Expected to Cause an Exceedance of Applicable WQS for Waters on the CWA 303(d) List
2022	Compilation of practices to achieve on-time submittal of Integrated Reports and EPA review of Section 303(d) lists
	ATTAINS Update
	50th Anniversary of the Clean Water Act Early Planning and Engagement in Defining Vision Priorities
2018	Expectation for electronic submission of IR and geospatial data through ATTAINS
2016	Implementing the Clean Water Act 303(d) Program Vision (2013-2022)
	Continue identifying waters impacted by nutrients for the Section 303(d) list for States without numeric nutrient water quality criteria
	Implementation of the Water Quality Framework: Assessment and Total Maximum Daily Load (TMDL) Tracking and Implementation System (ATTAINS)
	Use of Water Quality Impairment Data to Update the Variable Portion of the Fiscal Year 2017 Clean Water Act Section 106 Grant Allocation Formula
2014	Clarification on the assessment and assignment of waters to Category 4C Timeliness of State Integrated Report (IR) submissions and EPA action on State Section 303(d) lists

	Recommendations for the appropriate consideration of Natural Conditions to support removing a water from or not including a water on the Section 303(d) list
	Identifying nutrient-impacted waters for the Section 303(d) list for States without numeric nutrient water quality criteria
	Assessment and Total Maximum Daily Load (TMDL) Tracking and Implementation System (ATTAINS)
	Antidegradation and Listing Guidance
2012	Timeliness of State Integrated Report (IR) submissions and EPA approval
	Assessment and Total Maximum Daily Load (TMDL) Tracking and Implementation System (ATTAINS)
	Ocean Acidification Memorandum
	Antidegradation and Listing Guidance
2010	Suggestions for the appropriate use of a rotating basin approach
	Suggestions for the appropriate use of Category 3
	Circumstances and expectations for “partial approval/further review pending” determinations (deferral) on CWA Section 303(d) Lists
	Using and Reporting on Statewide Statistical Survey Data in ATTAINS and the National Water Quality Inventory Report to Congress
2008	A compilation of best practices employed by States/Regions to complete the development/submission of effective lists on time
	Continued commitment to support and populate ADB, documenting restoration, and streamlining data review
	Use of assessment results from State probability surveys to generate statewide summaries
	The use of partial approvals/further review pending
	Additional clarification on the use of Category 4b
	Greater consideration of the watershed approach when States are developing their lists, priorities, and schedules
	Continuing improvements in State monitoring and assessment programs
	How should States make 303(d) listing decisions when naturally occurring pollutants are present in a waterbody?
	Further information on how to address listing of waters impaired by mercury
	Attachment 1: 2006 IR Clarification Memorandum
	Attachment 2: Recommended structure for Category 4b demonstrations
2006	Introduction
	Reporting requirements under the Clean Water Act sections 303(d), 305(b), 314 and corresponding regulations
	Recommended organization of an Integrated Report
	Issues concerning the development and use of an assessment methodology
	Five-part categorization of waters
	Reporting results
2004	Introduction
	How should waters be segmented in the Integrated Report?
	What are the components of an Integrated Report?
	How could a State document the scientific and technical rationale for categorizing its waters in its assessment and listing methodology?

2002	Assessment and Listing Methodologies
	Integrated Lists of Waters and Monitoring Schedules
	Supporting Data and Information
	Public Participation
	Submission to EPA
	EPA Action on Section 303(d) Lists
	Support from EPA Regions and Headquarters
