GUIDING PRINCIPLES

Environmental Justice Principles established at the First People of Color Environmental Leadership Summit (1991) center on

- Sacredness of Mother Earth
- Respect for multiple cultures and beliefs
- Decolonizing methods
- Assure self-determination and environmental justice for all

<https://www.ejnet.org/ej/principles.pdf>

OUR MISSION

To work as authentic partners with communities towards environmental and energy justice by being a one-stop shop for hands-on technical assistance, multi-faceted training, and other eligible forms of assistance, resources, and support to program participants.

THE UNIVERSITY OF ARIZONA
ARIZONA INSTITUTE FOR RESILIENCE

Indigenous Resilience Center

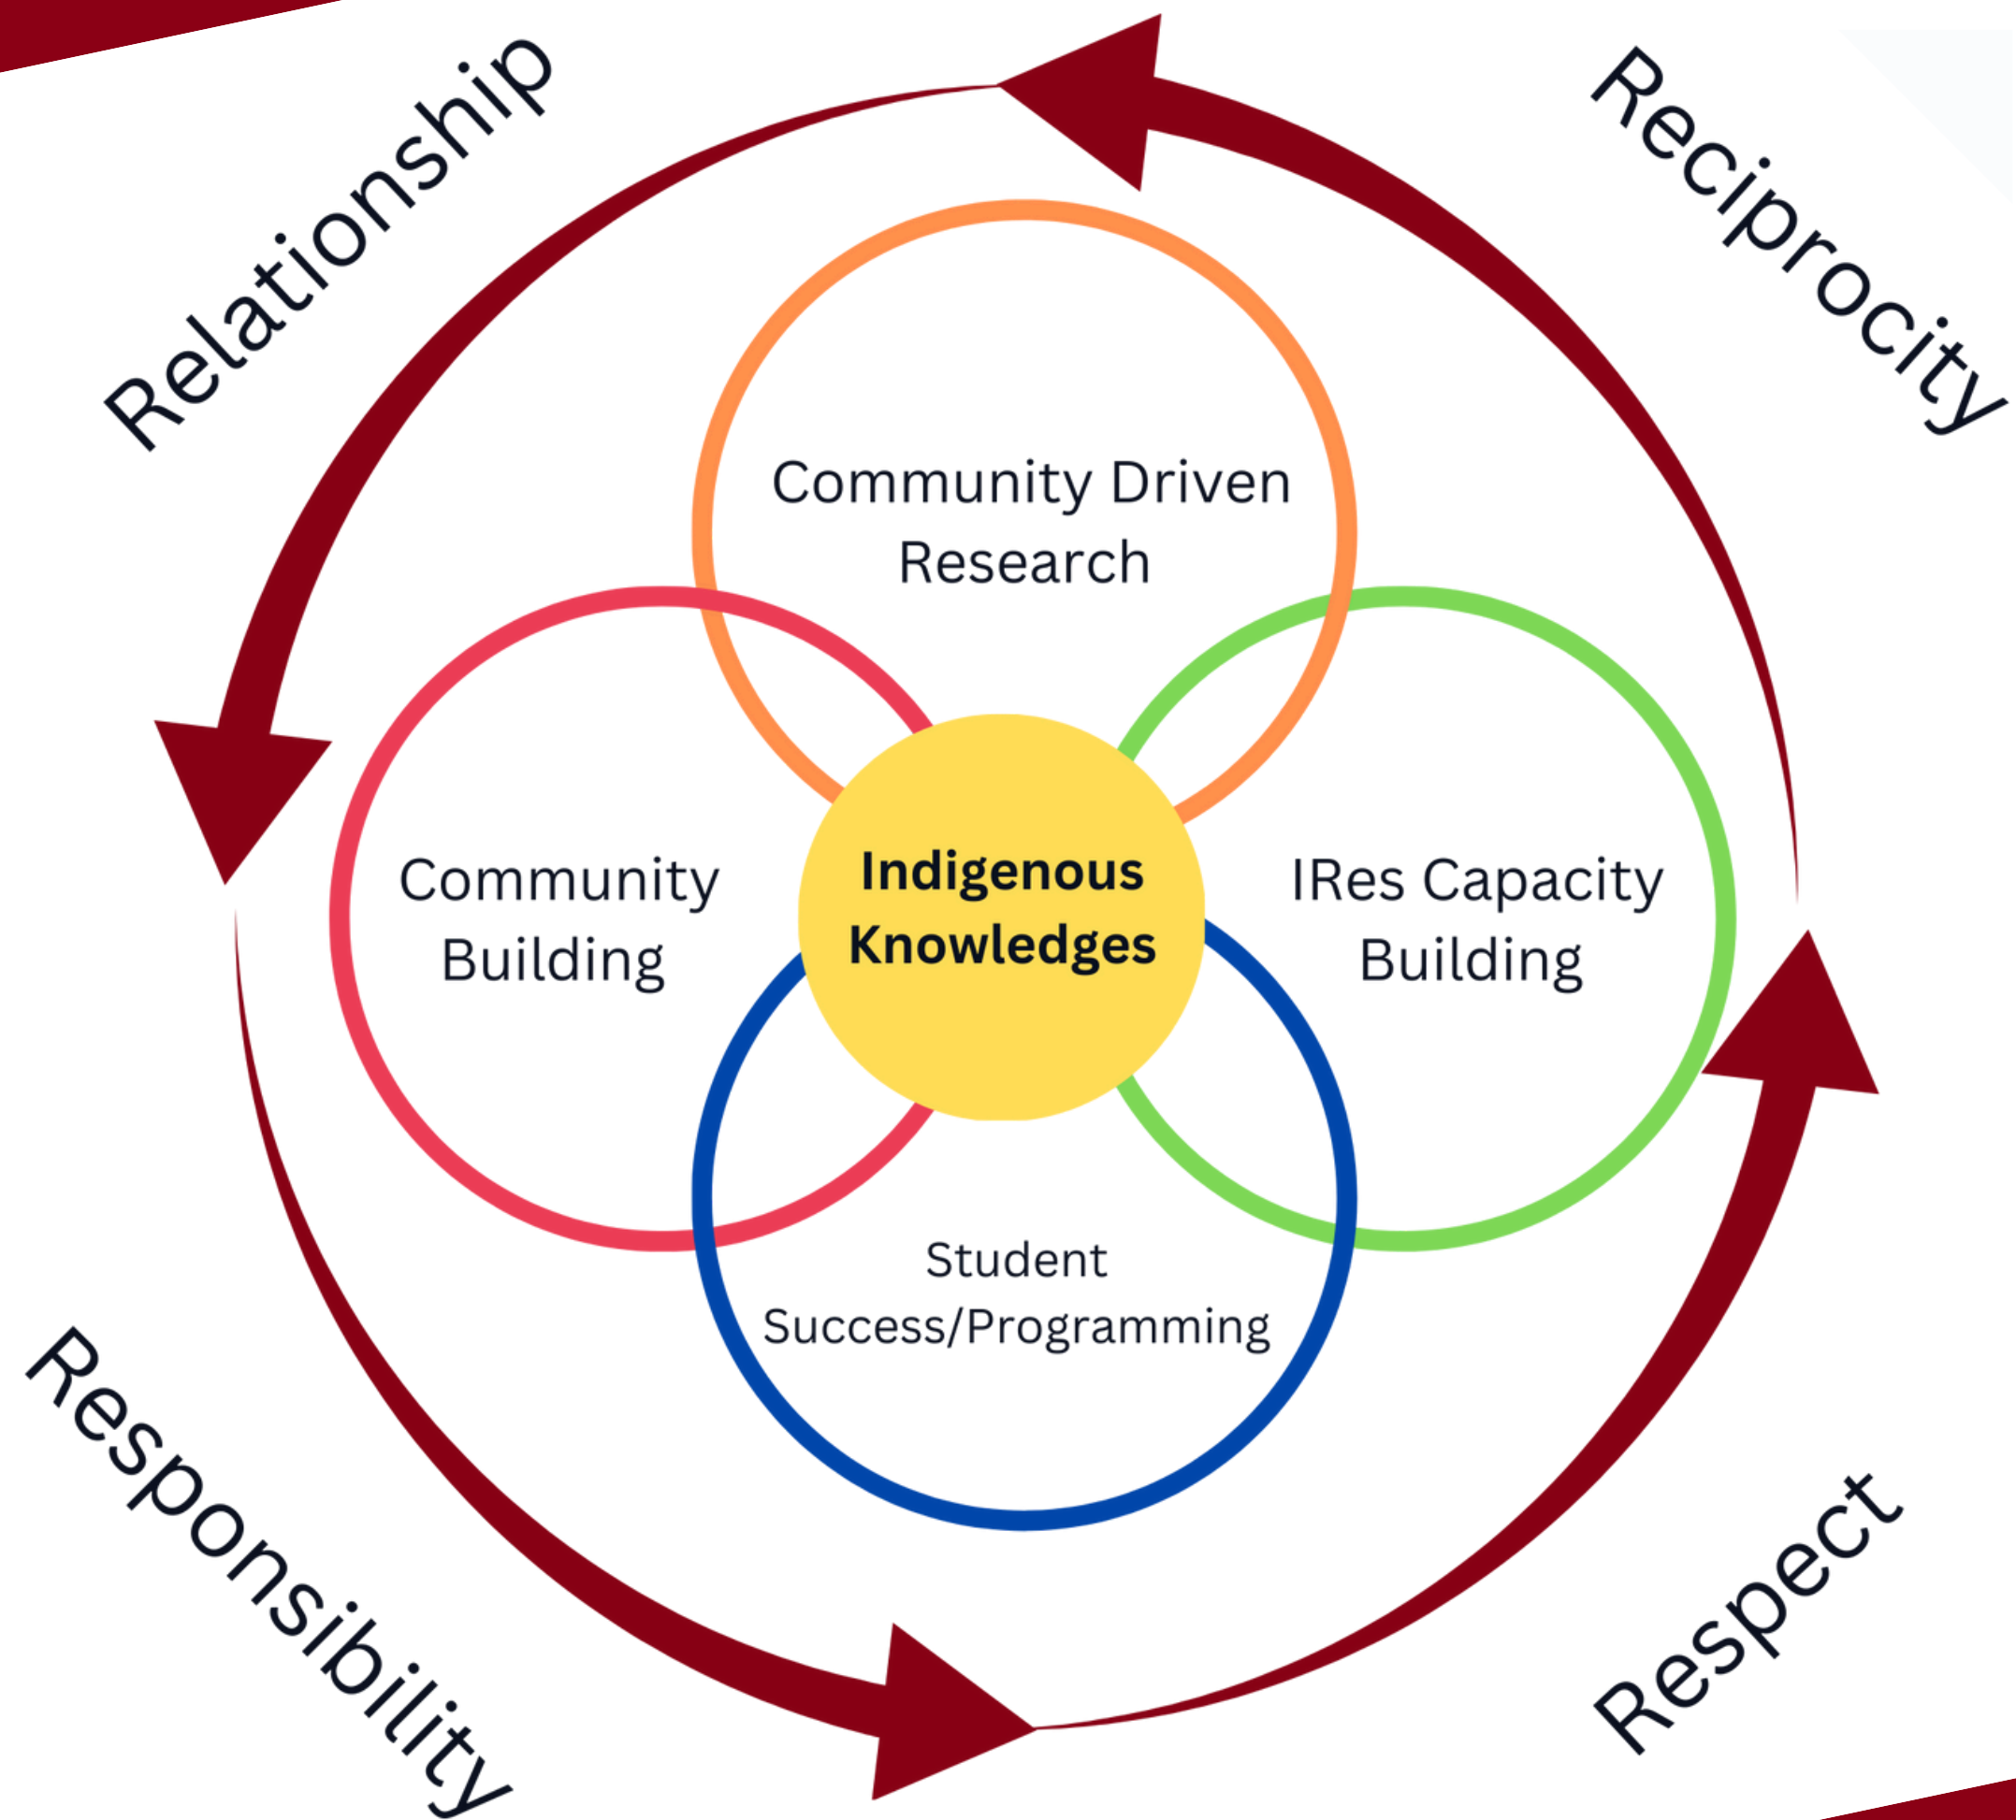

Vision:

We see a world in which Indigenous communities are thriving and adaptable to meet environmental and societal challenges.

Mission:

Centering Indigenous ways of knowing into co-designed environmental solutions and training the next generation of community leaders.

Guided by the IRes Core Values

Relationship

Guides the pathway to meaningful and deep collaboration and connection. Our framework and guiding principles are focused on establishing long term relationships.

Reciprocity

Grounds the work and commitment to Indigenous communities. Breaking the stigma of research and institutions, IRes recognizes and prioritizes the cyclical nature of collaboration and emphasizes the need for balanced cooperation with partners.

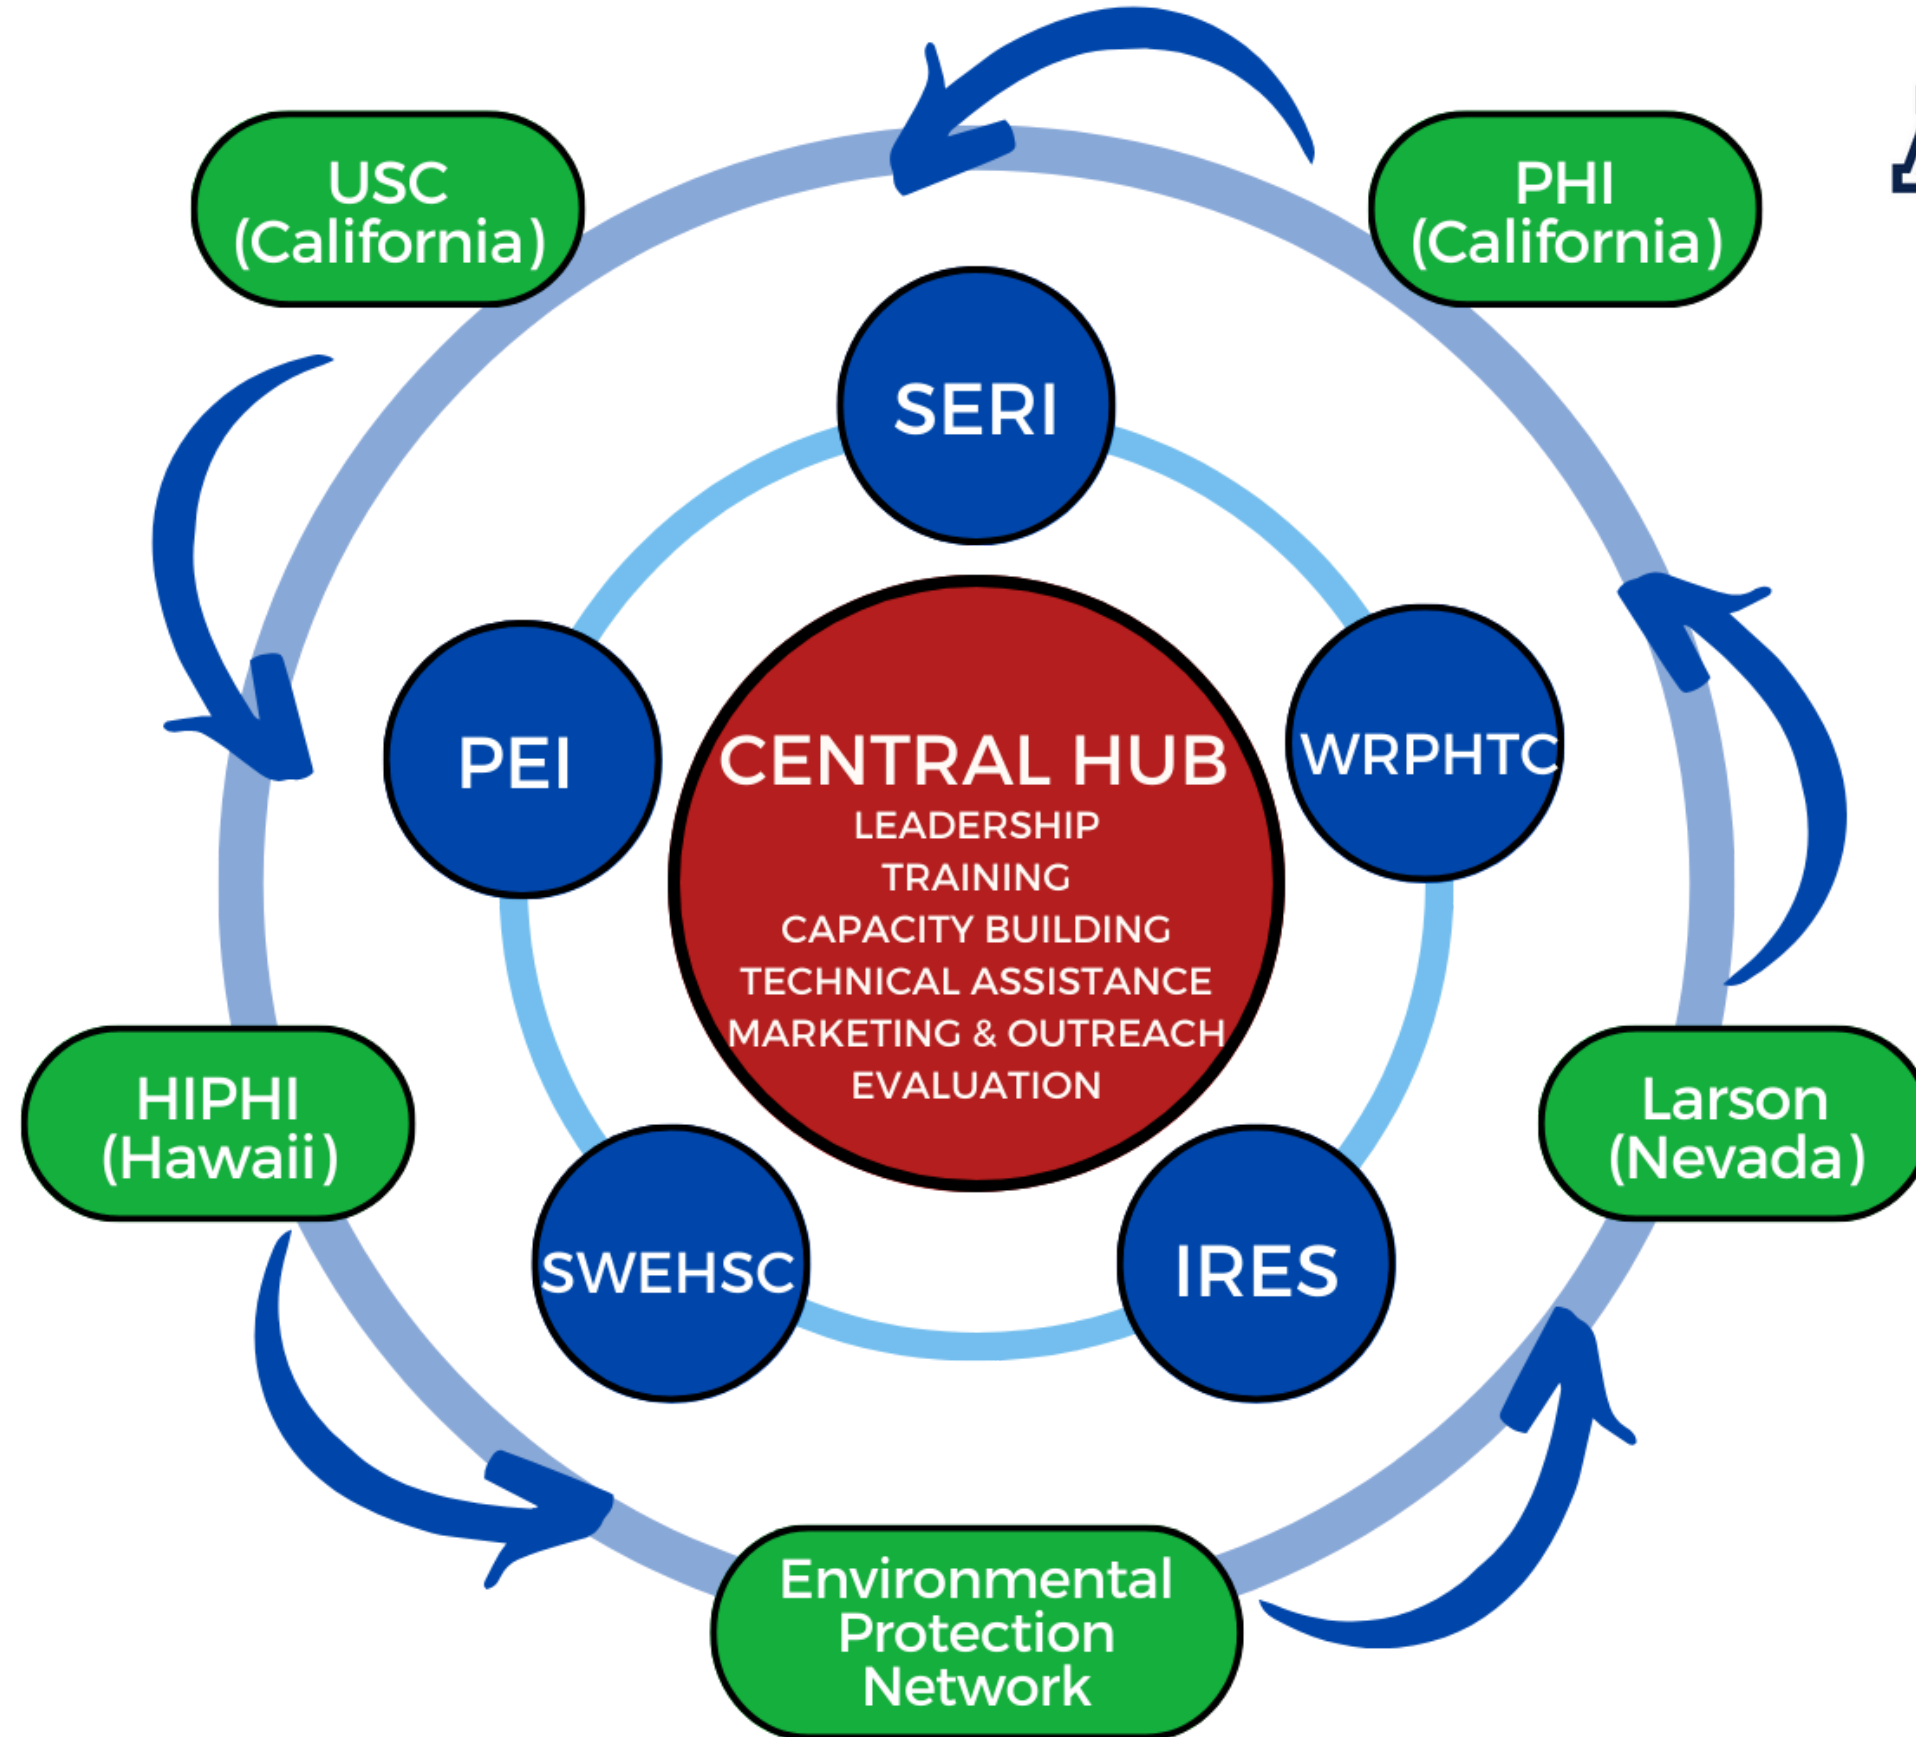

Respect

Must be at the heart of the Center's functionality. Transparency, consistent communication, and respect for place, beliefs, culture, history, language and ways of knowing must be elevated to serve as avenues for respect.

Responsibility

A need to elevate sovereignty, self-determination, and Indigenous ways of knowing through our work both internal and external at the University of Arizona. It is the responsibility of the Center to care for and nurture the relationships and collaborative efforts that have and will be in place.

ONE-ON-ONE ASSISTANCE

Urban and Community Forestry Tree Resource Enhancement and Engagement (TREE) Grant Guidelines

- Offered personalized assistance tailored to each client’s unique needs.
- Helped clients achieve meaningful and measurable results.
- Fostered ongoing relationships, staying connected and engaged.
- Adapted support as clients’ needs evolved over time.
- Provided flexible, varied assistance, ensuring each client receives the help they need.

Project Timeframe:	September 1, 2024 – June 30, 2025
Projects Closed: (Final Reports and Reimbursement Requests Due)	July 31, 2025

7. Project Need (2500 characters) Provide an overview of the project and the need for work (2,500 characters max)

The United States Forest Service, a federal agency of the United States Department of Agriculture, recommends that a realistic target for desert cities to attain is a 15 percent urban tree canopy. The [redacted] is dedicated to expanding our current city average 10% urban canopy cover with a focus in climate vulnerable communities. To date, the new million-tree initiative has recorded approximately 8,000 community planted trees and 2,100 city planted trees. While initial excitement and energy exists, it will take a strategic funding approach to plant one million trees by 2050 while including all residents. [redacted] recognizes residents in climate vulnerable communities face barriers such as economic capacity to plant trees.

In [redacted] canopy cover keeps residents safe from extreme temperatures. In 2023, the extreme temperatures in the [redacted] broke multiple records with 55 days over 110 degrees F and experienced a record 19 days with overnight low temperatures at or above 90 degrees F. Residents suffered from heat injuries and even died. Research has shown that trees have the ability to keep urban areas up to 45 degrees F cooler than those with no shade coverage. Shaded neighborhoods can provide respite from record hot heat. At the launch of the Trees are

   @WestEJCenter

Examples of Our Services

- A community clinic wants support finding and applying for grants to upgrade a building into a cooling center.
 - **Tailor a list of recommended grant opportunities, confirm their grant is complete, and support while they submit the grant.**
- County public health staff get questions about wildfire smoke in homes and heat and kidney function. Staff ask for resources on building box fan filters, as well as to speak with experts on the relationship between heat and kidney disease.
 - **Find, review, and compile useful resources on making box fan filters, and connect public health staff with an experts on heat and kidney disease to answer questions.**

Student Internship

Financial Support: Students will receive **\$5,000** for completion of the internship, reflection, feedback survey, and digital story.

— Eligibility:

- ✓ Age 18+, high school diploma/GED
- ✓ Enrolled in U.S. accredited institution
- ✓ Remote work possible with supervisor approval
- ✓ US citizens, US nationals, or foreign nationals with a visa permitting permanent residence in the US
- ✓ Serve communities in Arizona, California, Hawai'i, Nevada, or US Affiliated Pacific Islands, including Native American tribes and Indigenous communities in these areas

Looking for Extra Hands? Find Talented Interns to Support Your Work!

Is your organization in need of passionate, driven individuals to help you achieve your goals? By partnering with us, you can gain access to dedicated interns eager to contribute to your mission. Whether you're based in **Arizona, California, Hawai'i, Nevada**, or the **U.S. Affiliated Pacific Islands**, including **Native American tribes** and **Indigenous communities**, we're here to connect you with the right talent!

Financially Supported Interns

The WEST EJ Center will provide the intern with a stipend. Students will apply their environmental and energy justice knowledge and skills under the mentorship of their internship supervisor. Selected students will receive a total of **\$5,000** after they submit a 250-500 word reflection of their experience, complete a feedback survey, and present a digital story of their final report. Interns have up to a year to complete their internship.

Reach Out to Us:

Let us know what type of help you're looking for, and we'll work to match you with interns who have the skills and enthusiasm to meet your needs.
