

OFFICE OF CIVIL ENFORCEMENT

WASHINGTON, D.C. 20460

MEMORANDUM

SUBJECT: Extension of the Expedited Settlement Agreement (ESA) Pilot for the Hydrofluorocarbon Allocation Regulation Import Enforcement Program

FROM: Rosemarie Kelley, Director
Office of Civil Enforcement

TO: Air Enforcement Division
Office of Civil Enforcement

By this memorandum, I am extending the [*Expedited Settlement Agreement Pilot for the HFC Allocation Regulation Import Enforcement Program*](#) (“the original pilot”) for three months through March 31, 2025. The hydrofluorocarbon allocation regulation import enforcement program implements part of the HFC phasedown mandated by the American Innovation and Manufacturing Act, 42 U.S.C. § 7675. I initially approved the original pilot on June 30, 2023, effective for one year, and subsequently signed a six-month extension of the original pilot through December 31, 2024.

Please contact Ethan Thompson with the Air Enforcement Division at thompson.ethan@epa.gov or (202) 564-3027 if you have any questions about the ESA or this extension.
