Re: Approval of Request for Extension for Response to Technical Comments

Carbon TerraVault Holdings LLC (CTV) IV Project
Underground Injection Control (UIC) Permit Application
Class VI Pre-Construction Permit Application No. R9UIC-CA6-FY23-3.1 to 3.8

Dear Faisal Latif:

On January 22, 2024, we sent you a letter indicating that additional information is necessary to clarify and supplement the subject UIC Class VI permit application. In that letter, we requested that you submit the additional information by February 21, 2024.

On February 16, 2024, you emailed a request for an extension to submit the requested information by April 16, 2024. The request included a justification for the extension, stating that there is a software limitation as the requested sensitivity analyses on the simulation model takes a lot of time. This letter confirms that we find your justification and the alternative date by which you will provide the requested information acceptable.

If you have any questions about this letter, please contact Abby Farrell at (415) 972-3937, or call me at (415) 972-3971.

Sincerely,

David Albright
Manager, Groundwater Protection Section
