27200 Tourney Road, Suite 200
Santa Clarita, CA 913558

Dear William Chessum:

On March 11, 2024, the United States Environmental Protection Agency, Region 9 (EPA) sent you a letter indicating that additional information is necessary to clarify and supplement the CTV V UIC Class VI permit application. In that letter, we requested CRC to submit the additional information by April 10, 2024.

On April 8, 2024, we received an email requesting an extension to submit the requested information by June 10, 2024, along with justification for the extension. The justification provided was that the information EPA requested cannot be submitted by the original due date because of software limitations and staff time limitations as the same CTV team members are responding to the technical review comments on other CTV projects with earlier targeted deadlines. This letter confirms that we find your justification acceptable and EPA grants your extension to June 10, 2024 to submit the requested information.

If you have any questions about this letter, please call David Albright at (415) 972-3971 or contact Kaylee Glenney at (415) 972-3944.

Sincerely,

Tony Singh for
David Albright
