California Resources Corporation (CRC)  
27200 Tourney Road, Suite 200  
Santa Clarita, CA 913558

Dear William Chessum:

On May 24, 2024, the United States Environmental Protection Agency, Region 9 (EPA) sent you a letter indicating that additional information is necessary to clarify and supplement the CTV V UIC Class VI permit application. In that letter, we requested CRC to submit the additional information by June 24, 2024.

On June 21, 2024, we received an email requesting a one-month extension to the deadline for submitting the requested information, along with a justification for the extension. The justification provided was that due to the change in AoR methodology, CTV would like to reflect these changes in Attachment B (Area of Review and Corrective Action document) and submit revised versions of Attachment A and B together. This letter confirms that we find your justification acceptable, and EPA grants your requested extension to submit the requested information by July 24, 2024.

If you have any questions about this letter, please call me at (415) 972-3971 or contact Kaylee Glenney at (415) 972-3944.

Sincerely,

David Albright  
Manager, Groundwater Protection Section
